These notes are not intended as a textbook. It is
hoped however that they will minimize the amount of
note taking activity which occupies so much of a
student's class time in most courses in mathematics.

The format of these notes is similar to that of my calculus and linear algebra and advanced calculus notes from 2009-2011. However, I will make a number of definitions in the body of the text. Those sort of definitions are typically background-type definitions and I will make a point of putting them in bold so you can find them with ease.
