### Boatbuilding With Plywood: Glen L. Witt: Amazon.com.au: Books

Risking "I told you so" comments, I decided to post this as an example of what NOT to do. I still don't regret my choice of using cheap \$20/sheet underlayment plywood instead of spend \$100 a sheet for the "right" plywood. I got a lot of use out of this first homemade boat and learned a lot without spending a lot of money. A second boat using the same plywood that was stored out of the weather ...

### Boatbuilding with Plywood, Chapter 6 - Fastenings page 2

What most people don't know is that the WWII PT boats were built of plywood and were sturdy in wartime situations. It truly simplifies boat building from the old fashioned strip plank method and vastly speeds your project to completion.

## **Boatbuilding With Plywood: Amazon.com: Books**

Screws come in three main types: round head, oval head, and flat head. The flat head wood screw is the most commonly used in plywood boatbuilding. All head types are available as a slot head or with a crosshead type such as the patented Phillips or Read-Prince varieties. These latter types are usually easier for machine driving, however, with the hot dipped galvanized variety, these do not work out so well since the cross head tends to load up with the molten zinc thereby making them harder ...

Why you have to wait for some days to get or receive the **boatbuilding with plywood** record that you order? Why should you take it if you can acquire the faster one?
