(PDF) Social Work and Neurosciences: Speeches and ...

Neuroscience recognizes that the brain/mind is dependent on ongoing social relations throughout our lives (Cozolino, 2006; Siegle, 2013; Cacioppo, Visser, & Pickett, 2006). Cozolino, (2006) states that, “As a species, we are just waking up to the complexity of our own brains, to say nothing of how our brains are linked together.

Bing: Neurobiology For Clinical Social Work

In 2002, Louis Cozolino, PhD, a clinical psychologist and professor of psychology at Pepperdine University, published The Neuroscience of Psychotherapy: Healing the Social Brain, a look at the neurobiological foundations of human behavior and the neuroscience behind why and how therapy works. Dan Siegel, MD, coedited a comprehensive work in 2003, Healing Trauma: Attachment, Mind, Body and Brain that outlined the neurobiological foundations of understanding and treating trauma.

Neurobiology For Clinical Social Work, Second Edition ...

This chapter elucidates the burgeoning influence of neurobiology on clinical social work practice. Contemporary literature from the broad fields of infant research, child development theory, contemporary attachment theory, trauma theory, cognitive neuroscience, relational theory, and psychodynamic clinical theory is converging in a synergistic and interesting manner that supports the notions that human beings are resilient and that change is possible across the life cycle, even if ...
