## INTERPRETING THE BECK DEPRESSION INVENTORY (BDI-II)

Process Interpretation is to find out why the subject's performance was outside of normal limits. To do so, begin by turning to Form 4 to examine the ADHD Score. You already know if the ADHD Score is outside of normal limits (from reading Form 1), but now look at this index more closely. The ADHD Score is reported at the bottom of the page.

Scoring and Interpretation. The TOEFL ® research program conducts research to identify important information that score users need in order to appropriately and accurately interpret test results and make decisions based on test scores. Research efforts are made to develop statements and descriptors about what test takers with test scores within a given score range can typically do and how they can improve their English-language knowledge and skills.
